COLOURED JACKET - NOT ALL AVAILABLE FOR ALL

Clear Tech™ TECHNOLOGIES

TwinFlex™
Dramatically improve the performance, including reinforced mechanical strength, enhanced heat dissipation, and augmented conductor with duplex circuit transmission to increase current carrying capacity and reduce voltage drop.

C-Mask™
Improves the appearance and prolonging light's lifespan in outdoor applications.

PinBoost™
Reinforcement components on both sides of the SMD LED.

DryWire™
Block the passage of water and moisture into the light.

V-Optic™
Unique internal reflection angle design and reflective material formulation, which maximizes lumen output.

5 YEAR WARRANTY
